Profile

I'm a passionate Junior Flutter Developer and competitive programmer who loves solving problems and building clean, modern mobile and web applications. I enjoy turning ideas into functional, user-friendly experiences using Flutter and Dart. My background in competitive programming has helped me develop strong analytical thinking and efficient problem-solving skills, which I apply daily in my development work. I'm always eager to learn new technologies, improve my skills, and take on new challenges that help me grow as a developer.

Skills

Error handling — Competent
Skilled at effective error handling, ensuring reliable performance and smooth recovery from unexpected issues.

Problem solving — Competent
Excellent problem-solving skills with a focus on analytical thinking and creative solutions.

Programming fundementals — Competent
excels at programming fundementals with concepts like if conditions , loops , error handling and etc …
